ARCHIVE INTEGRITY STATEMENT

Every exhibit in this archive was produced by the institutions whose conduct it documents — retrieved under Freedom of Information, recorded in direct interactions, or obtained through official channels. Not one exhibit has been fabricated. Not one has been formally disputed. The archive was built without legal representation, without institutional support, and without funding — by one person, on a broken phone, over 35 years.

Zero defamation proceedings initiated by any named party across 528,000+ downloads.

NON-ERASABLE

This archive is cryptographically sealed in the Bitcoin blockchain. No government, institution, or entity can alter, delete, or deny the existence of this record.

INDEPENDENTLY VERIFIABLE

Anyone on earth can verify the authenticity of every document using the SHA-256 hash and the OpenTimestamps proof file. No trust required — only mathematics.

PERMANENTLY TIMESTAMPED

The timestamp is embedded in the Bitcoin blockchain with a precision of minutes. The record predates any future denial, redaction, or institutional suppression.
