SUBJECT: URGENT HUMANITARIAN PLEA — State-Targeted Whistleblower Seeks Safe Haven in Adelaide

Dear human of conscience,

For Gods sakes someone help me.

To every cop lawyer public official politician and the media-you are all on notice.

My name is Dr. Richard William McLean, known across national and international records as Barran Dodger — artist, author, mental health advocate, and now the surviving whistleblower of a state-sanctioned extermination program that has left me exiled, erased, hunted, and alive only by a miracle.

This letter is not merely a request. It is a sacred record of my final breath being offered as truth. I write to you as one of the only living testimonies of coordinated systemic persecution, launched by state actors and protected by silence. I am reaching out now not to explain, but to survive.

SUMMARY OF MY PERSECUTION

I have lived through:

- A verified blacklisting following my exposure of corruption within the NDIS (National Disability Insurance Scheme)
- False mental health certifications weaponised to destroy my credibility, remove my legal personhood, and lock me in institutions for speaking the truth
- Complete erasure from all systems — banks, media, law firms, support services, and my own government
- Public character assassination, slander, psychiatric abuse, and forced exile without ever being charged with a crime
- The severing of all access to legal aid, representation, or redress
- A formal assassination attempt, documented and submitted to international bodies
- State-enabled digital torture, including V2K (Voice to Skull), location tracking, harassment via Wi-Fi anomalies, and the blocking of every platform I used to speak out
- Years of displacement, homelessness, starvation, and sleep deprivation while attempting to flee a system that would rather me dead than heard
- Total family betrayal, including my own mother who issued a false AVO, and relatives who cooperated with the psychiatric industrial complex to silence me
- The denial of every politician I reached out to, including Ministers of Disability, Human Services, Prime Ministerial offices, legal commissions, ombudsmen, and police watchdogs
- The failure of the ICC and UNHRC to protect me despite submission of more than 30 formal tribunal-ready documents outlining crimes against humanity, torture, whistleblower retaliation, and unlawful targeting
- Physical assault, digital censorship, destruction of evidence, mail interception, and attempts at institutional murder — all on Australian soil

I am gay, disabled, a spiritual survivor, a registered NDIS participant, a former public servant, a published author, and a nationally known mental health educator — and yet I have not been treated as a citizen, a witness, or even a human being.

WHY THIS MATTERS

This is not just about me.

My erasure is the canary in the coal mine — a test of whether any truth-teller can survive within so-called democracy.

I am living proof that Australia engages in coordinated whistleblower erasure, targeting the most vulnerable, silencing the prophetic, and rewarding those who participate in the annihilation of truth.

The state has failed me.

The media has ignored me.

My own country has turned me into an exile.

I am not mentally ill. I am not dangerous. I am not ungrateful. I am a living scroll, a breathing archive, a witness who survived the unthinkable.

WHY I'M WRITING TO YOU

I am currently in Adelaide with my registered therapy dog, Crystal, and I urgently need a safe place to sleep tonight — not a crisis intake, not a medical review, not another humiliating shelter that refers me to agencies who've already refused me.

I need a room, a tent, a couch, a safe driveway, a human being with decency.

I need someone to say yes, because I have lived through a thousand systemic no's.

You do not need to know everything.

You only need to feel the truth.

WHAT YOU CAN DO:

- Offer a place to rest for one night, one week, or one breath
- Share this letter with someone who can help
- Host me and my therapy dog Crystal, even temporarily, with humanity and grace
- Use your voice, your platform, your conscience to protect what your government abandoned

I am not dangerous. I am not delusional. I am not broken.

I am someone who stood up when others were silent — and the price I've paid is nearly everything.

I have no food

I have no money

My car is unregistered

I have no petrol

Tony riddle senior ndis fraud investigator has threatened to kill me tonight and he is a governmnet backed SAS soldier who has a PhD in national security and anti terrorism-but HE and THIs GOVERNMENT and even my blood family are watching me being erased and allowing my murder. I am not suicidal i protest this because I want to live.

You are no more deserving of a home food and medicine than me.

It is beyond morally reprehensible to let crystal my therapy dog my only friend to be trapped inside my car.

Please do not let me die.

Not because I am weak — but because I am already proof that truth can survive torture, and I believe that's worth keeping alive.

If you do nothing else, I beg you — forward this to someone who can help.

If you are the person reading this who can — I am ready to come to you tonight.

With sacred breath and final hope,

Dr. Richard William McLean
