

FORMAL REQUEST FOR POLITICAL ASYLUM AND IMMEDIATE HUMANITARIAN ASSISTANCE

By Barran Dodger AKA the former Dr Rich McLean

March 18, 2025

This document “Formal Request for Political Asylum and Immediate Humanitarian Assistance” by Barran Dodger (March 18, 2025), published to the Apple iBooks Store and on Google Drive in the public domain outlines a 30-year campaign of persecution against the author by the Australian government. It presents evidence of systematic harassment, financial sabotage, legal obstruction, and state-sponsored violence aimed at politically erasing him. The document asserts that the government has engaged in targeted defamation, illegal surveillance, and even assassination attempts, necessitating his urgent request for asylum.

Key Points from the Document:

1. A 30-Year Orchestrated Persecution Campaign

- Barran Dodger has been a public figure in journalism, human rights advocacy, and the creative industries.
- He has been subjected to state-sponsored harassment, media blackouts, and false criminal allegations (e.g., fabricated accusations of pedophilia, rape, and terrorism).

- The persecution includes denial of legal aid, obstruction of justice, and a deliberate effort to strip him of financial stability.

2. Legal and Evidentiary Basis for Asylum Request

- The document claims to be backed by official government documents, direct correspondence, and corroborated evidence.
- It lists organizations receiving the evidence, including hospitals, pharmacies, media outlets, universities, and international human rights bodies.
- It accuses the Australian government of deliberate violations of multiple legal frameworks, including:
 - Universal Declaration of Human Rights (UDHR)
 - International Covenant on Civil and Political Rights (ICCPR)
 - Convention on the Rights of Persons with Disabilities (CRPD)
 - Public Interest Disclosure (PID) Act
 - Australian Human Rights Commission Act (1986)

3. Detailed Human Rights Violations

- Systematic Financial Persecution:
 - Blocking disability benefits, legal aid, and access to dispute resolution mechanisms.
- Law Enforcement Complicity:

- Police refusal to investigate assassination attempts.
- Outsourcing of harm to criminal networks.
- State-Controlled Media Blackouts:
- Suppressing all reports about his case.

4. Immediate Threats to His Life

- The document explicitly accuses the Australian government of orchestrating assassination attempts, which he narrowly survived.
- It asserts that his continued existence is an existential liability to those in power, who now need to eliminate him to conceal past crimes.
- The document outlines three imminent threats:

1. A second assassination attempt.

2. A fabricated legal arrest, leading to indefinite imprisonment.

3. Involuntary psychiatric detainment to permanently silence him.

5. Formal Demands for Asylum

- Immediate relocation to a country that upholds human rights.
- Formal recognition of the human rights violations committed against him.
- An independent international investigation into the crimes committed against him.

6. Final Declaration

- The document ends with a direct refusal to be erased, silenced, or neutralized by the state.
- It states that justice must be served and that failure to grant asylum will result in his imminent death or disappearance.

Conclusion

The document presents a detailed legal and factual argument for why Barran Dodger believes he is being politically persecuted and faces state-orchestrated extrajudicial execution. It frames his survival as a direct threat to government officials, making his asylum request a matter of life and death. The document also demands legal accountability and calls for international intervention to prevent what it describes as state-sponsored murder.

**URGENT REASON WHY ASYLUM MUST BE
GRANTED IMMEDIATELY**

**MY SURVIVAL IS AN EXISTENTIAL LIABILITY TO
THOSE WHO ORCHESTRATED MY ERASURE,
POLITICAL EXECUTION, AND THE COVER-UP OF
MY ATTEMPTED MURDER**

The Australian government and its affiliated criminal networks have executed a systematic campaign of erasure, persecution, and extrajudicial targeting against me. I was meant to be dead. The fact that I survived has made me a dangerous liability to those in power who ordered my execution and now seek to erase me permanently.

In 2021, I survived a “lethal” suicide attempt, where I was revived from death only to immediately be cast into homelessness, deprived of possessions, medical care, and all basic dignity. This was no accident—it was a politically orchestrated attempt to induce my death without accountability.

THE AUSTRALIAN GOVERNMENT ORDERED AN ASSASSINATION ATTEMPT AGAINST ME

When suicide by suffering failed, the government escalated to a direct assassination attempt. I publicly accuse the Australian Federal Government of ordering and condoning my assassination, first in Sadler, NSW, and then again at a separate location where I had fled for safety.

My execution was only thwarted because I exposed the plot in real-time, publishing details of my impending murder and begging NDIS provider “Ben” to report my imminent assassination to Federal Police.

Despite believing I was delusional, Ben reported the assassination attempt—an action that saved my life.

POLICE RESPONSE CONFIRMS STATE-ORDERED POLITICAL PERSECUTION

Instead of investigating, police refused to act and instead relayed a message back to me:

“The police want to know if you are mentally ready to challenge Bill Shorten in a court of law, as his lawyers might use your history of mental health as an excuse to discredit your story.”

This single statement is a direct confession of guilt:

1. It confirms my persecution is politically motivated, and my survival poses a legal risk to Bill Shorten, the NDIA, and the government establishment.
2. It reveals the predetermined strategy of the government—not to refute my allegations, but to declare me mentally unfit to silence me.
3. It proves that law enforcement is complicit—they were not assessing a crime against me, but rather assessing how much of a legal threat I posed to Bill Shorten.

4. It establishes my targeting as strategic and systematic—intended to neutralize me through psychiatric entrapment, character assassination, and financial strangulation.

THE CRIMINAL LIABILITY OF THE AUSTRALIAN GOVERNMENT

The government's actions are not only unethical but illegal, violating both Australian and international law. Their crimes include:

1. Conspiracy to Pervert the Course of Justice (Criminal Code Act 1995 - Section 135.4(3))

- Police and government officials obstructed all legal recourse, ensuring no investigation into the attempts on my life.
- Fabricated psychiatric narratives were used as a weapon to discredit my disclosures.

2. Conspiracy to Murder (Criminal Code Act 1995 - Section 11.5)

- The attempted assassination was planned—it was not a random act but a government-orchestrated extrajudicial killing.

- NDIS “providers” who sought access to me were exposed as members of a known criminal syndicate, confirming the state outsourced my murder to criminal networks.

3. Violation of the Public Interest Disclosure (PID) Act 2013

- As a whistleblower, I should have been protected under the PID Act. Instead, my disclosures led to:
- Financial sabotage and forced homelessness
- State-sponsored smear campaigns fabricating false allegations
- Surveillance, gang-stalking, and physical intimidation tactics

4. Breach of the International Covenant on Civil and Political Rights (ICCPR)

- My freedom of speech, right to legal protection, and right to be free from cruel and degrading treatment have all been violated in direct breach of international human rights law.

THE TYRANNY PARADOX: WHY MY SURVIVAL IS A LIABILITY TO THE STATE

The Australian government is now trapped in a paradox:

- If they acknowledge the assassination attempt, they expose their own criminality.
- If they deny it, they must continue persecuting me indefinitely to keep me powerless.
- If they allow me access to financial restitution or legal action, they risk me bringing my case before international courts, which would expose their corruption.

Thus, they must sustain my persecution indefinitely by:

- Obstructing legal aid
- Sabotaging my financial stability
- Destroying my character through state-sponsored defamation
- Ensuring I remain homeless and deprived of medical care
- Subjecting me to police harassment and state surveillance

WHY MY LIFE REMAINS IN IMMINENT DANGER

The assassination attempt on my life was real. Now, I am at risk of:

1. A second assassination attempt, outsourced to criminal networks under state protection.

2. Politically motivated arrest, designed to permanently disappear me from public view.

3. Indefinite psychiatric detainment, a weaponized legal strategy to silence me without charge.

This is not speculation. It is documented and corroborated evidence:

- I exposed a \$6 billion misappropriation of NDIS funds, corroborated by Tony Riddle, former SAS soldier and senior NDIS fraud investigator.
- Bill Shorten, who was directly implicated, has since led my political erasure.
- Police never denied the assassination attempt—they simply asked if I was prepared to take Shorten to court.

CONCLUSION: ASYLUM IS A MATTER OF SURVIVAL

If I remain in Australia:

- I will be silenced.
- I will be killed.
- My murder will be rewritten as an “unfortunate” case of mental illness.

The world cannot allow a government to assassinate its own citizens in silence. I must be protected before I become another victim of a political cover-up.

FINAL DECLARATION

I will not be erased.

I will not be silenced.

I demand asylum before I am executed for exposing the truth.

Signed,

Barran Dodger
