Subject: Formal Demand for Immediate Protection, Relocation, and Investigation

Dear Public Guardian,

I write to you under duress and with the utmost urgency to demand immediate intervention and relocation to ensure my safety and well-being. The circumstances I face are a direct result of systemic persecution, institutional neglect, and targeted harassment, all of which constitute violations of my fundamental human rights.

Your office, as an arm of the federal government, has a fiduciary duty to safeguard my welfare. Your inaction in the face of mounting evidence of abuse, threats, and systemic exploitation implicates you in a conspiracy of silence, if not direct complicity. If my life is further endangered or lost due to your failure to act, the legal and moral culpability will rest squarely with you and the agencies under your jurisdiction.

Overview of My Situation

1. Ongoing Threats to My Safety

Recently, I received credible death threats from individuals tied to an NDIS provider with known links to criminal gangs. This provider disclosed that government tenders are often funneled to criminal organizations, leaving individuals like me vulnerable to exploitation and targeted violence. These threats have escalated, with messages warning me that I am "not safe" and that I should "run."

2. Institutionalized Economic Abuse and Neglect

- I have been forced to live on a paltry \$200 per week while NDIS-appointed providers exploit my plan for personal profit.
- My funds, totaling hundreds of thousands of dollars annually, are misappropriated, leaving me without essential support, shelter, or resources.

3. Historical Targeting and Abuse

- I was coerced into signing leases while under chemical restraint in psychiatric facilities.
- The police, legal aid, and courts have systematically obstructed my attempts to seek justice, culminating in my forced exile and inability to see my dying father.

4. Surveillance and Harassment

- I am subjected to advanced harassment technologies, including voice-to-skull (V2K), designed to destabilize me psychologically.
- The ongoing isolation and targeting I endure are akin to state-sanctioned torture.

5. Political Retaliation and Conspiracy

- My whistleblowing efforts have exposed corruption involving high-profile figures, including Bill Shorten, and international bodies like the IMF.
- Attempts to silence me through economic sabotage, character assassination, and direct threats amount to modern-day human sacrifice.

Demands

In light of the above, I demand the following actions be taken without delay:

1. Immediate Relocation to Safety

I must be transported to a secure location where I am protected from further harm. This relocation should include adequate resources to address my immediate needs, including food, shelter, and medical care.

2. Comprehensive Investigation

Your office must initiate a full investigation into the threats against my life, the exploitation of my NDIS plan, and the broader conspiracy involving political figures, law enforcement, and service providers. This investigation should include:

- The financial mismanagement of my funds by NDIS providers.
- The complicity of police and courts in obstructing justice.
- The role of government contractors in perpetuating harassment and targeting.

3. Accountability for Neglect and Abuse

Your agency must hold all parties accountable for their failure to uphold their legal and ethical obligations, including but not limited to:

- NDIS-appointed providers such as Sukhi Tear, Alex Aboss, and Anas C.
- Institutions like Werribee Mercy Hospital and Nepean Hospital, which have weaponized healthcare against me.

4. Protection Against Retaliation

Measures must be put in place to ensure my safety, including legal protections against those implicated in this conspiracy.

Legal and Moral Implications

Failure to act on this formal demand will render your office complicit in the systemic abuse and endangerment I face. Should any harm come to me, it will constitute state-sanctioned murder, and I will ensure that your inaction is documented and exposed at every level, including international human rights courts.

Your mandate obligates you to act in my best interests, and any failure to do so will be seen as a direct violation of your fiduciary duties. I expect an immediate response to this letter, outlining the steps you will take to address my demands.

This is not merely a request—it is a legal and moral imperative. The time for excuses and inaction has passed. My life hangs in the balance, and your intervention is critical to ensuring justice and accountability.

Sincerely,
Barran Resonance Dodger
