Yeah mate I care

mean mate I care

And here to help

I'm actually unsure of that it's been my experience I'm only an ndus plan as a commodity to be exploited.

I have no worth ti this society.

Except fur the 150 grand to providers who are always bribed to deny accountability of work cover and my marriage settkement accept this conspiracy and that I live in exile and entrap me in poverty

We know the ndis corruot

Bill shorten caused my exile

You were right

The tenders go to the criminals and the cops protect the drug lords

I had a legitimate death threat or at least criminal network sent by shorten to harm me

I told cops but they protected the criminals

In my case cops lawyers Snd politicians are the criminals

Do what do I do when a confirmed criminal masquerading as an ndus provider who is not even aligned with a company or will identify himself offers to heko

Thu, 16 Jan at 12:47

My plan is agency managed but every provider is worded Uo tk entrap me in poverty because the ndis minister ran me out of town and into exile

It's not a usual ndis situation they are proven to be abusing me neglecting me entrapping me to poverty denying accountability and torturing me

Please I beg of you send me a deviance agreement and if it doesn't get through in time and you're not approved just put me anywhere safe right this instant and work out payment later because I'm going to die I'm sick of fighting

I found a place already and confirmed it and Sukhi tear my ndis appointed support coordinator blocked it

They obstructed me having a home

That's not benign neglect

That a pointed victimisation to deconstruct my safety well-being and life and they will be held accountable

Send to your support Corrdinator
That I no longer require your services effective immediately and I have found a more suitable support Corrdinator for me

That way we can find you a support Corrdinator that helps you

Will contact the housing commission authority on your behalf

Send it bv email and text

If your not happy with her

I can't

Baide:

Fatima has a place for me and confirmed it niw says she won't becayse she will get in trouble meaning Sukhi has threatened her with something to guarantee my accomodation is blocked

Sukhi is obstructing it by blaming her that she needs to do paperwork when it's her thats obstructing it following the mandate of my persecution and deconstructing my life and causing detriment

I've instructed to NOT reveal my address that is my choice and control and no one can enforce that if it's my choice to remain anonymous

Fatima knows I'm homejess in ten hours and she won't answer my texts or call me back

Herein lies the corruption which is all related to the non acknowledgment of my PID because my whole existence is a political reprisal

Sukhi is ndia appointed and cant be fired in breach of ndis policy of choice and control

She's been worded up to delegitimise my valid PID and reject my marriage settkement and my well long overdue Workcover thise gsng she herself expects but denies me in her institutional complicity

If Sukhi and fatina both force my homejessness-they're is a possibility I could die of sustained homelessness abuse neglect surveillance a designed poverty and torture

Sukhi pays herself well as a support coordinator for hitching a ride on my unfortunate situation of being unprotected under the PID act

This is the same type of targeting that solicited my suicide attempt that was deemed fatal

She knows this and she still actively participated in the corruption and my targeting placing my life at imminent risk

Like what has she even done she's in Perth and I'm in exile because of the ndis minister shorten in Sydney and she has overseen me for months now always allowing providers to exploit my money and entrap me in poverty

She's overseen NCAT and the hospital force and intimidate me out of the home I did have after aligned community care made 80000 off my ndis plan

Serious if someone had have aiven me 80000 for

...three months I'd have been fine

Thats 150000 per six months 300000 per year

Serious just give me the miney and see how far I get without corruot Sukhi and the equally corruot punoic guardian who have not only withheld my pension and avoided accountability

But they financially abuse me keeping me in dire straits that equates to financial abuse and torture

And they obstructed my legal aid instead of appointing someone which was their role for my fight with the ndis around SIIIS accomodation

There are two professional reccomendations for SIIIS

The Nfis have their lawyer and I have no one just member Williamson who seemed tk think asking the ndis the guardian and legal aid for help was good idea

This is despite me calling out that there is a budget now for silencing and torturing me to guarantee the complicity of every cop lawyer public official and politician ti silence me

If I die this will be a human sacrifice and a targeted killing

Sukhi thinks she's immune over in Perth with criminal corruption bill shorten protecting her

But she's not

She's corruot like the rest of them

I've published all this at:

Www.barrandodger.com.au

OFFICIAL NOTICE: Subject: Fiduciary Obligations and the Systemic Neglect of Whistleblower Dr. Barran Dodger Who Denies Allegations of Corrupt Authorities
Dear Australian Politician, AND HUMAN RIGHTS ORGANISATIONS,
Re: Institutional Neglect, Targeted Harassment, and Breaches of Fiduciary Duty...

Fatima initially confirmed that she had a place for

me, but now she claims she cannot help because she will get into trouble. This suggests that Sukhi has threatened her with something to block my accommodation. Sukhi is obstructing the process by blaming Fatima for needing to do paperwork, but in reality, Sukhi is the one causing the obstruction. This aligns with the ongoing mandate of my persecution, which involves deconstructing my life and causing harm.

I have made it clear that my address should not be revealed. That is my choice and control, and no one can enforce otherwise if I choose to remain anonymous. Fatima is aware that I will be homeless in ten hours, yet she is not responding to my texts or calls. This highlights the corruption connected to the non-acknowledgment of my PID, as my entire existence is a political reprisal.

Sukhi is NDIS-appointed and cannot be fired, which is a breach of NDIS policy regarding choice and control. She has been complicit in delegitimizing my valid PID, rejecting my marriage settlement, and denying my long-overdue WorkCover. These are rights she herself would expect but denies to me, demonstrating institutional complicity.

If Sukhi and Fatima force my homelessness, there is a real possibility I could die from the sustained abuse, neglect, surveillance, designed poverty, and torture. Sukhi pays herself well as a support coordinator but uses my unprotected status under the PID Act to profit from my suffering. This targeting is the same as what led to my suicide attempt, which was deemed fatal but resulted in my revival. Sukhi is fully aware of this yet continues to actively participate in the corruption and targeting, placing my life at imminent risk.

Sukhi, based in Perth, has overseen my case for months while allowing providers to exploit my

months while allowing providers to exploit my NDIS funds and entrap me in poverty. She has also allowed NCAT and the hospital to force and intimidate me out of the home I did have, after Aligned Community Care made \$80,000 from my NDIS plan. If I had received that money directly, I would have been fine. Instead, it equates to \$150,000 every six months or \$300,000 a year, which has been wasted while I remain in poverty.

The public guardian and Sukhi have also withheld my pension, avoided accountability, and kept me in financial distress. This is financial abuse and torture. They have further obstructed my access to legal aid, which was their responsibility, leaving me to fight the NDIS regarding SIL accommodation without proper representation.

Despite professional recommendations for SIL, the NDIS has their lawyer while I have no one. Member Williamson suggested asking the NDIS, the guardian, and legal aid for help, even though I've clearly stated there is a budget for silencing and torturing me. This ensures the complicity of every official to silence me.

If I die, this will be a human sacrifice and a targeted killing. Sukhi thinks she is immune in Perth, protected by NDIS Minister Bill Shorten, but she is not. She is complicit in corruption.

I have published all of this at www.barrandodger.com.au. You need to call Sukhi immediately and ask why she is blaming Fatima for not completing paperwork. You also need to contact Fatima as a priority to find out what is going on. This must be resolved by the end of the day because I will not wait around to be forcibly removed into homelessness. If I die, it will be on everyone's heads.
